PROFESSIONAL SUMMARY

Detail-oriented Information Technology graduate with practical experience in Game Development, Web Development, and Quality Assurance. Skilled in manual testing and test case design, with front-end development experience using React.js, Tailwind CSS, and Unity/C#.

EDUCATION

FEU INSTITUTE OF TECHNOLOGY

2026

BSIT, Animation and Game Development

WORK EXPERIENCE

FEU TECH Innovation Center

Sept – Dec 2025

Game Developer Intern

- Developed Tam's Quiz, a 2D game focusing on Design Thinking concepts through interactive gameplay, enhancing the player's learning experience.
- Coded gameplay mechanics and game logic using C# and Unity, delivering smooth gameplay.
- Performed multiple tests to find bugs within the game to resolve gameplay issues resulting in a more stable gaming experience.

Highly Succeed Inc.

Jan – Apr 2026

Web Developer Intern

- Designed the UI/UX of the Alumni Portal using Figma for the overall design of the website.
- Coded the front-end features of the Alumni Portal using React.js and Tailwind CSS, ensuring consistent display across devices.
- Conducted UI testing based on feedback, ensuring the final interface meets the functional standards.

Quality Assurance Intern

- Designed manual test cases based on user stories to validate functionality and monitor progress.
- Conducted regression and exploratory testing across multiple websites to catch defects and to ensure smoother deployment.
- Recorded voice-over walkthrough videos explaining websites functionality and purpose.
